Re: Shade Structure PC 04-117140

To Whom It May Concern:

The intent of the "20'-0" set back" note highlighted below does not relate to a structural issue, but rather to a life safety issue.

In addition the wind design used for the PC is for clear wind flow.

The DSA Plan Checker for the above PC is Vincent Nutila. If you have any questions, please feel free to contact me.

Mark Lowe  
 Structural Engineer #53693
